

# UMAIR IBRAHIM IDRIS

Nigeria Kano | 070-611-62787 | [umairibrahim07@gmail.com](mailto:umairibrahim07@gmail.com)

## Objective

Passionate self-taught software developer with a relentless drive for learning and innovation. Eager to bring my problem-solving skills, creativity, and technical expertise to a dynamic and forward-thinking organization. I aim to contribute to cutting-edge projects and collaborate with industry leaders, while further honing my craft in a challenging and stimulating environment.

- 

## Skills

- HTML
- CSS
- JavaScript
- React js
- Expo Go
- Express js
- MongoDB
- SQL
- Firebase
- Git
- GraphQL
- Code Review
- Software Architecture

## Self-Learning Experience

- **JavaScript** - Self-taught through various online resources
  - **HTML & CSS** - Self-taught through various online resources
  - **React & React Native** - Self-taught through various online resources
  - **Node.js** - Self-taught through various online resources
  - **MongoDB** - Self-taught through various online resources
  - **MySQL** - Self-taught through various online resources
- 

## Extracurricular Activities

### Open Source Contributor

*GitHub*

*March 2023 – Present*

- Contributed to several open-source projects, fixing bugs and adding new features.
- Gained experience in collaborative development and version control using Git.

### Volunteer, Code for Good

*June 2023 – Present*

- Developed a web application for a non-profit organization, improving their community outreach and engagement.
  - Worked with a team of volunteers to design and implement user-friendly features.
- 

## Certifications

- Response Web Design
- JavaScript Algorithms and Data Structures
- Front End Development Libraries
- Back End Development and APIs

## Education

Bachelor of Science: Accounting

Jan 2020

Al-Qalam University

Katsina

## Projects

### Work Flows Web Application

*Current*

- Solely developed the entire front end of a work flows web application using React
- Designed and implemented user interfaces and experiences, ensuring a seamless user journey.
- Focused on creating reusable components and maintaining a clean codebase for scalability.

<https://regal-maamoul-e44ea2.netlify.app/>

### IMF Collection Mobile App

*March 2024*

- Developed a mobile application for tailoring services using React Native and Expo Go.
- Integrated Firebase as the database for user authentication and data management.
- Implemented features for users to save , edit and share data and track their orders and measurements

<https://expo.dev/artifacts/eas/h1ZpR2UR6Q3MVuLPCfJQEc.apk>

### Suits Web Application

*May 2023*

- Designed and developed a web application using React and Firebase for ordering ready-made clothes and fabrics.
- Implemented functionalities for browsing products, placing orders, and managing user profiles.
- Ensured a responsive design to provide an optimal user experience across different devices.
